

Minors Consent L and E Presentation

G. Optional (CE questions)

Questions you can use for the CE portion of the survey (*Minor's Consent presentation*)

1. The newer minor's consent law, Health and Safety Code Section 124260, allows minors to consent to their own treatment in a wider variety of situations than the older minor's consent law, Family Code Section 6924. True or False?
2. Under the newer minor's consent law, Health and Safety Code Section 124260, a minor can consent to their own treatment if the minor is:
 - a. 12 years old or older
 - b. 12 years old or older and of reasonable maturity and intelligence
 - c. 12 year old or older and mature enough to intelligently participate in the treatment
 - d. 14 years old or older and mature enough to intelligently participate in the treatment
3. Which of following statements is TRUE?
 - a. Trainees must notify their supervisors (or their on call supervisors) within 24 hours of providing treatment via minor's consent
 - b. Associates and trainees must notify their supervisors (or their on call supervisors) within 24 hours of providing treatment via minor's consent
 - c. Trainees must notify their supervisors within one week of providing treatment via minor's consent
 - d. Trainees do not need to notify their supervisors that they are providing treatment via minor's consent if the minor's parents are involved in the treatment
4. When a minor consents to their own treatment, the minor's parents or guardians are not **required** to pay for that treatment unless:
 - a. The parents or guardians agree to pay for the treatment
 - b. The parents or guardians are satisfied with the treatment services
 - c. The parents or guardians participate in the treatment
 - d. The parents or guardians share legal custody of the minor
5. Health and Safety Code Section 124260 allows minors to consent to receive psychotropic drugs. True or False?
